BUSINESS PLOT: The Banksters' Fascist Coup To Overthrow The U.S. Government

DECEMBER 29, 2014 / CONSCIOUSAWARENESSFORALL / EDIT

From 1933 to 1934, a group of massively-wealthy, evil zionist businessmen conspired to overthrow the United States federal government in a **coup d'état** that has come to be known as "**The Business Plot**" (or "**The Wall Street Putsch**"). Led by future Connecticut Senator **PRESCOTT BUSH**, the group included the heads of globalist corporations such as **Chase National Bank of the City of New York** (the **Rockefellers** and **Morgans** were their largest shareholders), **General Motors** (the **DuPont Illuminati bloodline**), **Goodyear** (who partnered with the U.S. government to profit from German technology and illegal trade during war time), **Standard Oil** (the **Rockefeller Illuminati bloodline**), **U.S. Steel** (the **Morgan Illuminati bloodline**), **DuPont** and numerous U.S. mutual life insurance companies.

While **primarily executed** from 1933 to 1934, the roots of the **Business Plot** began years earlier with the **engineered** crash of the U.S. (and global) economy in the 1920's. Between 1923 and 1929, the **Federal Reserve banking cartel** falsely and illegally inflated the U.S.' funny money supply by **62%**. According to plan, the shit hit the fan on October 24th, 1929.

"When everything was ready, the New York financiers started calling 24 hour broker call loans. This meant that the stockbrokers and the customers had to dump their stock on the market in order to pay the loans. This naturally collapsed the stock market and brought a banking collapse all over the country because the banks not owned by the oligarchy were heavily involved in broker call claims at this time, and bank runs soon exhausted their coin and currency and they had to close. The Federal Reserve System would not come to their aid, although they were instructed under the law to maintain an elastic currency." ~WILLIAM BRYAN

The zionist bastard banking cabal then bought up ALL of the dumped stock at a **90%** discount. They now controlled virtually **ALL** of the U.S. economy and since they owned nearly **ALL** of the country's stocks, they were able to manipulate the economy at will.

"It was no accident. It was a carefully contrived occurrence... The international bankers sought to bring about a condition of despair here so they might emerge as rulers as all of us." ~ LOUIS MCFADDEN (U.S. House Banking Committee Chairman)

► **DID YOU KNOW:** The members of the Federal Reserve Board are **APPOINTED** by a country's President for a 14-year term, **NOT VOTED UPON?**

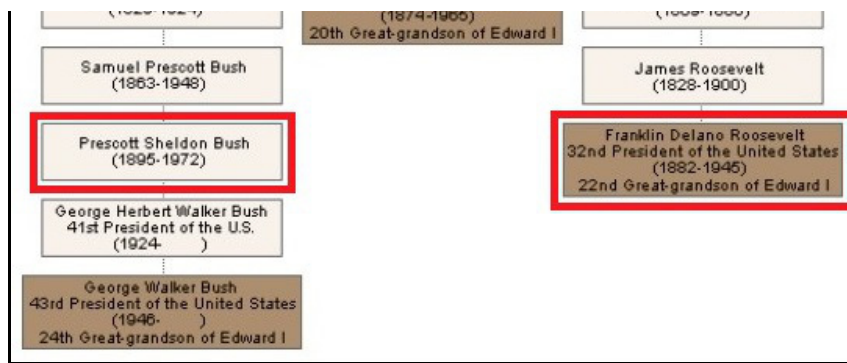

With the **Great Depression** in full swing, the masses were hurting. They had no money, no food and no jobs. ENTER: Political Dichotomization! FDR (**FRANKLIN DELANO ROOSEVELT**) was the President of the U.S. He was a **masonic illuminist**, so he was just a figurehead for *The-Powers-That-Be* (that zionist bastard banking cabal that I mentioned a moment ago). As part of the "**New Deal**," the U.S. Congress passed bullshit legislation known as the **Emergency Banking Relief Act** in 1933. It **FURTHER** expanded the President and Federal Reserve's power over the U.S. economy and money supply, allowing them to **convert debt into cash** and give out loans at interest rates as low as **1%**.

Boy, with all of those MILLIONS of starving Americans out there, you'd think that the ability to convert debt into cash and issue near-interest-free loans would be a GODSEND! Well . . . nooooope! Do you think that the

evil zionist pigs would actually use those powers to make loans to the people who needed it? Of cooourse not! They made loans at a **1%** interest rate to corporations and banks who already had more money than they knew what to do with! And they did it *flagrantly*, RIGHT in the face of the public!

This was done intentionally to turn the masses **against** the U.S. government, portraying it as the proverbial "*bad guy*," when it was the evil banking cabal BEHIND that government who was **pulling the strings ALL ALONG**. Divide and conquer: a strategy as old as time. But in reality, the government and banksters were working on the same team, the team that was playing **AGAINST** the public.

With the engineered economic inflation turning paper money into toilet paper, gold was the only TANGIBLE currency upon which the masses could rely. So naturally, in 1933, FDR illegally signed **Executive Order 6102** into order, criminalizing the possession of gold by anyone but the government (and since the banksters owned the government, they therefore owned the gold as well).

With the American public thoroughly pissed off at their government, the pump was primed and the globalist banking cabal **struck** when the iron was hot. Prescott Bush arranged for lawyer **GERALD MACGUIRE** (an agent of the **Morgan Illuminati bloodline** who represented Wall Street broker **GRAYSON MURPHY** [director of Goodyear and **Bethlehem Steel**] and Singer sewing machine heir **ROBERT STERLING CLARK** to recruit renown U.S. Marine Corps General **SMEDLEY DARLINGTON BUTLER** to lead their military coup against the U.S. government and **FDR** (who was in on it the whole time), and to install a fascist dictatorship in the U.S. (military General **DOUGLAS MACARTHUR** was said to be the back-up choice in case Butler refused). They offered Butler a position of power in their coming government and **\$100,000** to go along with their plot.

Butler was very well known to the public thanks to his decades of high-ranking military service. He was popular with soldiers and veterans, but also bitter towards the U.S. government after his 33-year military career ended on a sour note. In theory, he would make a great asset to the banksters.

The **premise** was to destroy the U.S. economy (which they did) and subsequently convince the American public that **fascism** would be a better alternative to the capitalistic constitutionally-limited democratic republic under which the U.S. currently operated (and still does to this day . . . on paper anyways). They would also convince the public that FDR was in poor health and would therefore be an ineffective leader for the country. They would then oust any political opposition and install their own yes-men in power, giving them full political control of the country, its laws, its people and its money.

The cabal had selected Butler to become the figurehead of the movement, believing that they could control him. The bankers told Butler that they were backed by virtually unlimited funds (which I don't doubt) and a group of **500,000** ex-soldiers who fully supported the cause (most definitely a LIE). Upon a successful overthrow of the U.S. government, they would then install outspoken U.S. Army veteran **HUGH S. JOHNSON** as military dictator of the fascist state. They planned to create a new position called the "Secretary of General Affairs" in which they would install Butler and have FDR resume his role as the figurehead of the nation (assuming his continued compliance).

Other plotters included:

- ▶ **WILLIAM DOYLE** (former commander of the American Legion)
- ▶ **JOHN W. DAVIS** (Attorney for J. P. Morgan, U.S. Congressman, U.S. Ambassador to the U.K. and former U.S. Presidential candidate)
- ▶ **AL SMITH** (4-time Governor of New York, Co-Director of the American Liberty League, President of Empire State Inc., **Papal Chamberlain** and FDR's political foe)
- ▶ **JOHN J. RASKOB** (**Knight of Malta**, former Chairman of the U.S. Democratic National Committee and executive for DuPont and General Motors)

The banksters financed a group called the "**American Liberty League**" (founded by the DuPonts) which would be the face of their new fascist political movement to overthrow the U.S. government. They wanted to create a buffer to distance themselves and their names as far from the actual **dirty work** as possible. If anything went wrong, they wanted to ensure that they could in no way be held liable or responsible. This was the reason for having MacGuire contact Butler instead of them doing it directly, Butler being the proposed public face of the movement and Johnson being the proposed dictator of the fascist state instead of one of their own. They needed people to take the fall on their behalves.

Thankfully, Butler refused to go along with the banksters' **plans**. In his 1934 testimony before a **special committee** of the U.S. House of Representatives, he revealed their plans in detail. All individuals who were implicated denied all involvement and the committee wholly wrote-off Butler's claims, confirming only that he had previously had conversations with MacGuire; nothing more. The committee edited out and censored major portions of Butler's testimony from their final report, mainly that which directly implicated the big-name bankers and businessmen who were involved. A communist magazine entitled "**The New Masses**" published **portions** of the redacted testimony. The magazine argued that it was a "*conspiracy of Jewish financiers working with fascist groups,*" namely **FELIX WARBURG** and **J. P. MORGAN**.

▶ **INTERESTING NOTE:** The special committee before which Butler testified was chaired by U.S. Congressman **SAMUEL DICKSTEIN**, who was later revealed to be an agent of the **NKVD** Soviet law enforcement agency.

Not a single prosecution or investigation resulted from Butler's Congressional testimony. It is quite clear that those in charge of the special committee were either paid off or threatened into submission by the banksters. The Zionist-controlled media dismissed the testimony as well. In a December 1934 editorial entitled "***Credulity Unlimited***," the New York Times called the whole thing a "*gigantic hoax*." MacGuire, the only man who could corroborate Butler's statements, mysteriously died (at the ripe old age of **37**) shortly after the committee released its report.
